Collection description:

Edward Everett Hale (1822-1909) was an author and Unitarian minister of Worcester and Boston, Mass.

This collection of papers consists mostly of miscellaneous letters reflecting the various interests of Hale. Several of the letters are to Nathaniel Paine (1832-1917) and some of these and others concern the American Antiquarian Society. There is also a scrapbook containing memorabilia of a trip as far west as Chicago in 1865 and a trip to Florida in 1887. The scrapbook also contains journal entries describing the western trip.

[A Bible that once belonged to Hale is filed in Dated Books. Entitled The New Testament...conformed to Griesbach's standard Greek text (Boston: William L. Lewis, Printer, 1828), it contains interleaved and annotated comments made by Hale in 1839 concerning his interpretations and criticisms of the text.]
