LOTTO.

LOTTO is one of the most popular of all games. Its simplicity and interest recommend it alike to young and old.

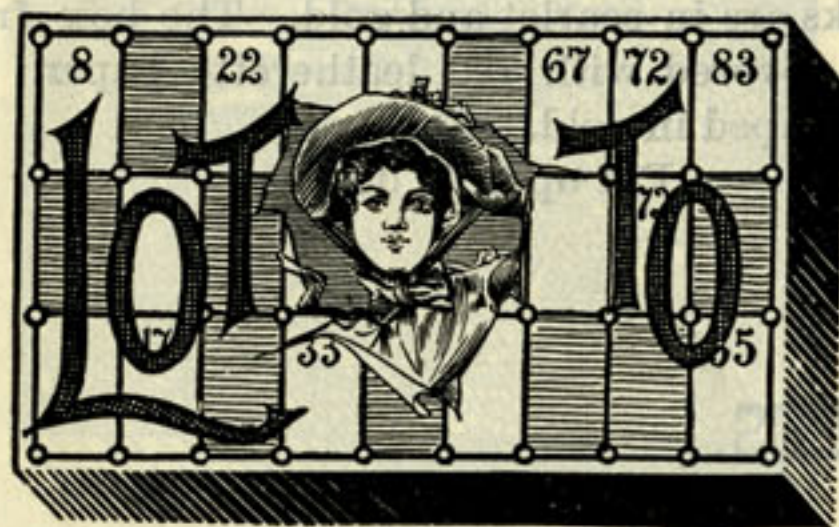

A Lotto game must contain a set of cards, laid off in properly numbered squares, and a set of ninety numbered pieces. A quantity of glass markers is also usually added to the larger sets, though buttons, beans, or other small articles may be used in place of glass.

The players each receive several cards and a portion of the markers. The leader draws the numbered pieces from the box, calling the numbers drawn. The players cover with markers all the numbers called, which may be upon their cards. The one who first gets a row of numbers on one of his cards covered with glass markers, wins the game.

We make the best and cheapest Lotto games to be had in the market. Our glass is the nearest square, most even and best finished, our counters the most plainly and evenly printed, and our packing the neatest.

\$1.50 FISH POND GAME.

No. 537.—MAGNETIC FISH POND.

14 1/2 x 14 1/2 inches.

This Fish Pond differs from our Improved Fish Pond entirely. It consists of a tank or aquarium of cardboard. This is covered on the outside with pictures representing fish swimming in water, as seen through the glass of an aquarium. The fish used in the game have wire rings in their mouths. They are put out of sight on the bottom of the tank. The "hook" is a magnet on a pole and line. The magnet is drawn around the bottom of the box. When it meets a ring in a fish's mouth, the ring adheres to the magnet and the fish may be drawn out. The element of luck appertains to this game more than to our other Fish Ponds, for the reason that the fish cannot be seen at all before being caught.

It is a game for children.

Colonial Park.

Size of box, 15 x 20½ inches.

This toy set contains 8 large colonial houses, etc., all made to stand up. The buildings are jointed and have detached roofs, all folding up neatly inside the box. The label is in full colors and gold and varnished.

No. 546.—NEW PRETTY VILLAGE—
Size 2—2 Kinds.

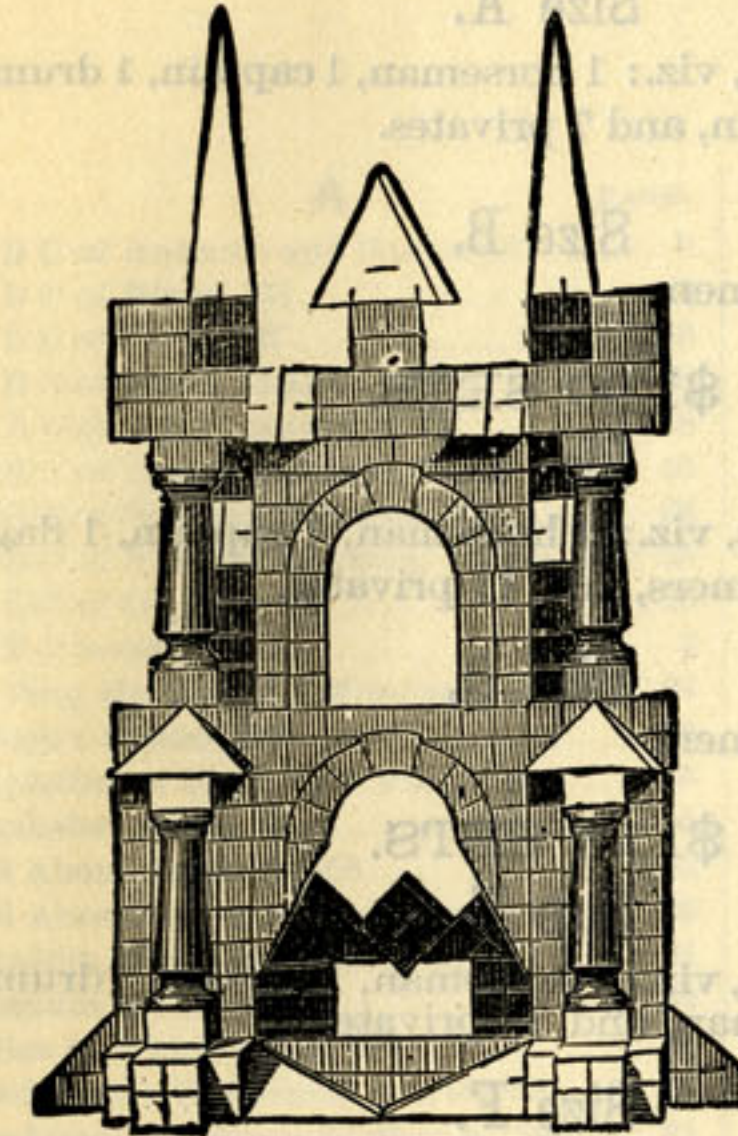

24 Figures and 8 Buildings in each set.

\$1.25 MISCELLANEOUS GOODS.

No. 530.—MODEL BUILDING BLOCKS—Swift's Patent.

Box, 8½ x 11½ inches.

These blocks are the most perfect children's building blocks ever invented. They are of hard wood, cut mathematically true, and sawed at right angles part way through all over their surfaces. This makes them resemble stone, and at the same time serves for the insertion of little pieces of tin with rounded corners.

These pieces of tin go half into one block, and on pressing another block upon it the two adhere firmly. The saw cuts are so accurate that any block will fit anywhere on any other.

The larger set contains 112 blocks, and the smaller half that number.

TIDDLEDY WINK GAMES.

No. 850.—TIDDLEDY WINKS—No. 0.

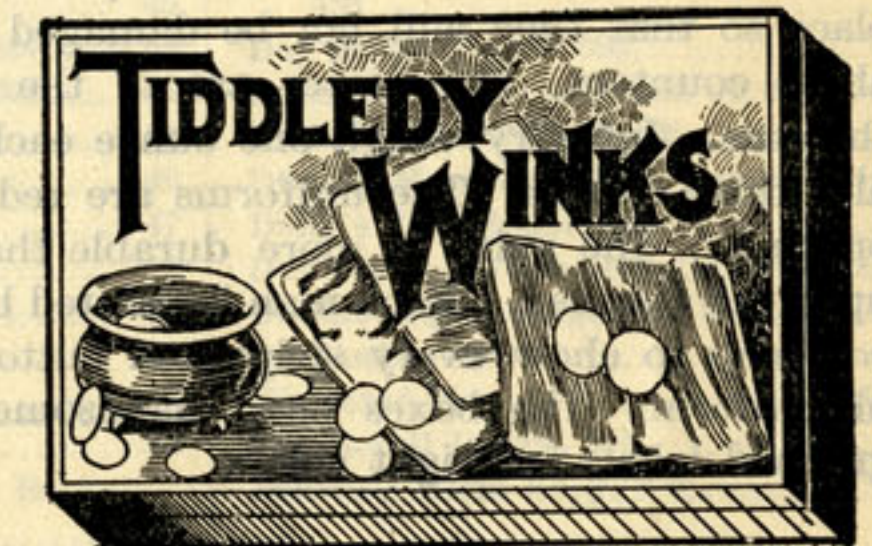

25 Cents.

Bone Winks.

Box 3 x 4½ inches.

This game is similar to No. 1 wood pot, except that it has "Winks" and "Tiddledies" of duranoid instead of bone. This is neatly put up and a good Tiddledy Winks game, but is not quite so pleasant to play with as a set with the bone winks.

No. 852.—TIDDLEDY WINKS—No. 2.
50 Cents.

4½ x 8 inches.

The game of Tiddledy Winks is played with six round bone chips, or "Winks," 5/8 of an inch in diameter, one large chip, 1 1/8 inches in diameter, a soft mat or table cover for each player, and a cup or "pot" for common use.

To play, a small chip is put on the mat; the large chip, grasped between the forefinger and thumb, is pressed upon its centre and drawn steadily away from the "pot." When the edge of the small chip, or Wink, is reached, it flies forward and upward toward the pot. The game is to put the Winks in the "pot" in this manner, as in the picture above. No. 2 has six sets of men, three mats, one for each pair of partners, and a wooden cup, or Wink pot.

The label is printed in colors.

No. 851.—TIDDLEDY WINKS—No. 1.

30 Cents.

Size, 3 x 4½ inches, wood pots.

" 4½ x 4½ " glass pots.

The game is played the same as that described under Tiddledy Winks, No. 2, above. These sets have no mats, but are intended to be used on a soft table cover. One to four may play.

We regard the wood pot as preferable to the glass for children, as it is much safer. The glass pot gives an attractive resonant sound as the chips fall into it, which induces some to prefer it.

The following sized boxes of our "Soldiers" have the pieces packed in cotton and securely sewed into place so that they will not be damaged or lost about counters. The pieces are of the size of the cuts. Infantry weigh one ounce each; cavalry three ounces. The uniforms are red, white or blue. The paint is more durable than that upon the German. Each man is painted by hand accurately to show every stripe and button upon his uniform. The boxes have handsome lithographed labels in bright colors.
