LOTTO

LOTTO is one of the most popular of all games. Its simplicity and interest recommend it alike to young and old.

A Lotto game must contain a set of cards, laid off in properly numbered squares, and a set of ninety numbered pieces. A quantity of glass markers is also usually added to the larger sets, though buttons, beans, or other small articles may be used in place of glass.

The players each receive several cards and a portion of the markers. The leader draws the numbered pieces from the box, calling the numbers drawn. The players cover with markers all the numbers called, which may be upon their cards. The one who first gets a row of numbers on one of his cards covered with glass markers, wins the game.

We make the best and cheapest Lotto games to be had in the market. Our glass is the nearest square, most even and best finished, our counters the most plainly and evenly printed, and our packing the neatest.

$1.50 FISH POND GAME.

No. 557.—MAGNETIC FISH POND.
14 1/4 x 14 1/4 inches.
This Fish Pond differs from our Improved Fish Pond entirely. It consists of a tank or aquarium of cardboard. This is covered on the outside with pictures representing fish swimming in water, as seen through the glass of an aquarium. The fish used in the game have wire rings in their mouths. They are put out of sight on the bottom of the tank. The "hook" is a magnet on a pole and line. The magnet is drawn around the bottom of the box. When it meets a ring in a fish's mouth, the ring adheres to the magnet and the fish may be drawn out. The element of luck appertains to this game more than to our other Fish Ponds, for the reason that the fish cannot be seen at all before being caught. It is a game for children.

It is designed to be furnished with paper or other small furniture, and to be occupied by paper or other small dolls.

No. 530.—MODEL BUILDING BLOCKS—Swift's Patent.

Box, 8 1/2 x 11 1/2 inches.

These blocks are the most perfect children's building blocks ever invented. They are of hard wood, cut mathematically true, and sawed at right angles part way through all over their surfaces. This makes them resemble stone, and at the same time serves for the insertion of little pieces of tin with rounded corners.

These pieces of tin go half into one block, and on pressing another block upon it the two adhere firmly. The saw cuts are so accurate that any block will fit anywhere, on any other.

The larger set contains 118 blocks, and the smaller half that number.

TIDDLEY WINK GAMES.

No. 850.—TIDDLEY WINKS—No. 0. Bone Winks.

Box, 3 x 4 1/2 inches.

This game is similar to No. 1 wood pot, except that it has "Winks" and "Tiddlywinks" of darning needles instead of bone. This is neatly put up and a good Tiddley Winks game, but is not quite so pleasant to play with as a set with the bone winks.

No. 851.—TIDDLEY WINKS—No. 1. 30 Cents.

Size, 3 x 4 1/2 inches, wood pots.

The game is played the same as that described under Tiddlely Winks, No. 3, above. These sets have no mats, but are intended to be used on a soft table cover. One to four may play.

We regard the wood pot as preferable to the glass for children, as it is much safer. The glass pot gives an attractive resonant sound as the chips fall into it, which induces some to prefer it.
