American Watch Papers

With a Descriptive List of the Collection
in the American Antiquarian Society

BY DOROTHEA E. SPEAR

No library or museum in the country, so far as we know, had attempted to gather a comprehensive collection of watch papers until the American Antiquarian Society became interested. In 1948 the Library had an opportunity to purchase twenty-six early papers which originally were in the possession of Dr. Samuel A. Bemis, of Boston. Bemis, whose father, Samuel Bemis, was a watchmaker, was apprenticed to the trade in Boston about 1810, but in the hard times following the War of 1812, young Bemis realized that the making of watches was not a lucrative business. He therefore decided to become a dentist and practiced very successfully in Boston for many years until the 1860's when he removed to Hart's Location in New Hampshire. It is believed that he gathered old watches to melt for the filling of teeth, removed the watch papers, and carefully preserved them. During his entire life, Dr. Bemis had the reputation of not throwing away even the smallest items and for this New England thrift we are most grateful. The little lot of papers, including his father's handsomely engraved advertisement as a watchmaker, formed the nucleus of the Society's collection which now numbers two hundred and fifty-eight examples. The Bemis watch shop, consisting of partially completed watches and clocks, small tools, and work benches, was acquired in 1929 by the Edison Institute Museum at Dearborn, Michigan.
There are large collections of English watch papers in London, at the Guildhall Library, and in English private collections such as those of John Eliot Hodgkin and Edward Heron-Allen. Yet for American watch papers only a relatively few examples are to be found in the Metropolitan Museum of Art, also the Museum of the City of New York, and in other museums such as the New York Historical Society, the James Arthur Collection at New York University, the Essex Institute at Salem, the Historical Society of Pennsylvania, the Smithsonian Institution, and the Chester County Historical Society at West Chester, Pennsylvania. The largest private collections of American watch papers which have come to our attention are those of Ernest A. Cramer, of Philadelphia, Mrs. Joseph and Miss Lea Carson, of Bryn Mawr, and Harry Birnbaum, of New York City. The Carson collection includes many interesting examples of Philadelphia and other Pennsylvania papers, also a charming group of sentimental watch tokens. Jean L. Roehrich, of New York, has an extensive collection of embroidered and hand-painted gift papers, although they are chiefly of foreign workmanship.

Originally these circular watch "papers" (but more often made of fabric than paper) were used as a packing or cushion between the inner and outer case of the watch to keep the case more firmly closed and so protect the works from possible dust. They became popular as keepsakes in the mid-eighteenth century, and perhaps before, and so continued up to the 1870’s. They formed a happy excuse for young women to exhibit their needlework in these miniature tokens exchanged with friends or relatives, to be carried in their watches. The Lady’s Magazine of London, in the issue of November, 1780, has the statement at the foot of the title-page: "This Number is embellished with the Copper-Plates, viz.—No. 1. Neat and elegant Patterns for
The plate shows six patterns of lacy flower designs, some with scalloped edges, most appealing as remembrances.

In 1778 Washington wrote a note of thanks to Miss Elizabeth Watkins for “her curious present of a laurel wreath,” which proved to be a watch paper in the form of a wreath, sent to the General as a token of her esteem. This youthful admirer of General Washington was the daughter of John Watkins of St. Christophers, West Indies, who later established a home both at Paramus, New Jersey, and on Harlem Heights overlooking the Hudson River. Here Washington was entertained at dinner, a memorable event for young Elizabeth. The note, presenting the laurel wreath, states that it is of her own cutting and is “a faint emblem of those which the General has so lately reaped on the Plains of Monmouth.” Elizabeth Watkins in 1792 married Robert H. Dunkin, and their daughter Ann became the wife of General John S. Van Rensselaer of Albany. In the Thomas Jefferson Collection at the Library of Congress are two interesting watch papers, one of which is that of John Wood, master clock-maker of Philadelphia. The second is of silk, showing a woman embracing a child, with the notation that it was a “watch paper belonging to Grandpapa Jefferson.”

Cut-out designs were much in vogue as gift papers and examples have been found showing such sentimental subjects as doves, hearts, lyres, and forget-me-nots. In the collection formed by Mrs. Carson there is a delightful group.

of tokens showing hand-stitched monograms in small circles of silk, a carefully drawn and tinted bouquet of moss roses, and a beautifully colored design of twin hearts on a sundial, with an anchor lying beside it, surrounded by a delicately drawn wreath of leaves and blossoms. There is even a miniature map of the southeastern tip of the United States, meticulously drawn, and perhaps of romantic significance. We have also learned of an early valentine watch paper, dating in the 1790's, crocheted with very fine linen thread in a design of birds and vines, with the lettering: "Do you love me true as I." There are also several charming and unusual valentine watch papers in the collection of Carroll A. Means, of Woodbridge, Connecticut. In the American Antiquarian Society is a beautiful little hand-painted token, dated 1824, showing three doves perched on a nest of roses, with the words "May Friendship still thy evening feast adorn, And Smiling peace forever bless thy morn."

Not all watch papers, however, were such cheerful keep-sakes. The thought of passing time often produced mournful verses or advice for wise living, such as the following:

A Watch may teach unthinking Man
That life is but a transient span
His reasoning powers the balance shows
Thoughts like the hands tell how it goes
Conscience the Regulator proves—
And self inspection faults removes
With this and fervent pray'r each night
Wind up yr days and set them right.¹

Leander Eaton's paper states that "Time is Money" and "Honesty is the Best Policy," while Daniel Cummings advises: "Heed the Moments as They Pass. Be Honest."

We find that watch papers were also used for mourning purposes, showing a tombstone shadowed by a weeping willow. Examples of manuscript watch papers have been found, containing in the center, in minute handwriting, the Lord’s Prayer. In one case, although the watch paper itself is one and three-quarters of an inch in diameter, the space occupied by the Lord’s Prayer takes less than three-quarters of an inch and is truly a feat of penmanship.

It was not long before clock- and watchmakers realized that the small round papers in the back of a watch could serve a most useful purpose. They provided padding for the case, it is true, or a pleasing token of friendship, but they could also be used as an advertising medium for a watchmaker. It soon became the custom, as a watch was repaired or cleaned, for the maker to insert his own paper, showing an engraved advertisement and the location of his shop. In several instances we learn that the watchmaker also dealt in “rich jewelry,” seals, keys, chains, spectacles, thimbles, or silverware, and sometimes even “fancy goods.” Frequently on the reverse of the paper he noted the date of repairs, or the price. It is not unusual to find several different watch papers in a watch, but ordinarily there is not more than one. Perhaps a watchmaker did not care to preserve his competitors’ advertisements and therefore removed any previous watch papers before inserting his own.

Other individuals and groups apparently made use of watch papers as a means of advertising. At the time of the Erie Canal Celebration at New York in 1825, a badge was designed depicting the union of Erie with the Atlantic. This device, in circular form, was printed on satin, to be worn by guests as a badge on the Celebration day, and later

it could be used as a watch paper by members of the various trades represented in the parade. Colored circular miniature barrelheads were sometimes used as envelope corner cards, later clipped and used as watch papers. Such examples have been noted where the owner of a watch had used as a watch paper the corner card of the firm for which he worked. Occasionally a watchmaker’s advertising card included his name and address in a circle in the center, to be cut out and serve as a watch paper when needed.

The smallest watch paper in the American Antiquarian Society collection, that of Charles Campbell, of Philadelphia (dating 1800-03), measures one and one-half inches in diameter and surely must have been intended for a feminine timepiece. The largest, that of John O. Pitkin, of Hartford (dating 1842-49), is two and one-half inches wide. They vary in size all the way between these two measurements, but the most common size seems to be about two inches in diameter. The later papers were noticeably larger as it became the fashion to carry the large turnip watches. The earlier the watch paper, the better was the grade of paper used, and we find many varieties of thickness and finish. Although the majority of the papers show black ink on white or cream paper, some are bright orange, green, blue, red, or even pale pink. Occasionally colored ink was used and we have examples of red, blue, green, and brown ink. Not only were these small discs made of paper, but also of many fabrics varying from the thinnest muslin, net, silk, or satin, even to velvet or soft leather.

The designs shown on our watch papers form an interesting study. They vary considerably, although certain subjects are repeatedly used in different forms. Quite naturally, the most popular subjects are watches, clocks,

hour-glasses, or watch springs, and after these we find eagles, Father Time, Justice with scales, languishing female figures, and cherubs. Many of the borders show graceful garlands of flowers or leaves, such as the particularly pleasing border on the paper of Caleb Rogers, of Newton. One of the more original designs portrays a jeweler’s store window (Thomas Russell, Woodstock, Vermont), another a large beehive surrounded by flowers (Joel Catlin, Augusta, Georgia), a Masonic building (Charles A. Droz, Philadelphia), a charioteer, the wheel of whose chariot is in the form of a clock face (William Widdifield, Fayetteville, North Carolina). Other papers especially attractive are those of Samuel Bemis, Boston; John Birge, Brattleboro, Vermont; John Fries, Philadelphia; Peter Gowan, Charleston, South Carolina; Hunt & Clark, Bennington, Vermont; James Latimer and James McDowell, Philadelphia; Tunis Lewis, New York; Andrew Montgomery, Baltimore; George Sollday, Montgomeryville, Pennsylvania; and Andrew C. Trott, Boston.

It is interesting to note the similarity between the designs of our American and certain English watch papers, especially in the use of Father Time and a figure holding an anchor. It is quite natural that the American watchmakers should have used the English designs as models, and also it is probable that they sometimes purchased engraved papers from England, to be filled in with their own names. In several cases the engraved designs of two watch papers of men either in different or in the same towns are alike, such as William A. Belknap, of Exeter, New Hampshire, and Munn & Jones, of Greenfield, Massachusetts; also Benjamin Hill and Moses L. Morse, both of Cambridgeport, Massachusetts. This makes us realize that there were probably stock patterns of watch papers available.

A study of these watchmakers' advertisements shows the development of engraving and also of commercial advertising art in the eighteenth and early nineteenth centuries. The earliest papers are well-engraved, while some are lithographs, woodcuts, or printed labels, often with a border of type ornaments. Our first knowledge of watch papers in this country is from an advertisement by Hugh Gaine in the *New York Mercury* of December 4, 1758, where he announced that "a beautiful Print, in Miniature, of that truly Great Patriot, the Honourable Mr. Secretary Pitt, Adapted for Watches" was for sale at six pence each. Unfortunately no copy of this print has been located, nor is it known who was the engraver. Apparently it was the custom, especially in England, and later adopted in this country, to show portraits of celebrities in the form of watch papers.

The *Boston Evening Post* of December 27, 1762, advertised that Nathaniel Hurd had engraved likenesses of King George the Third, William Pitt, and General Wolfe, which could serve as watch papers. The American Antiquarian Society owns this engraving, which shows three medallion portraits, hand-tinted, each about two inches in diameter, signed by Hurd. It is a fine example of his work and is unusually charming in design. The portraits are excellent and the likeness of Wolfe especially, in his red uniform, is quite striking.

One of the rarest and most interesting papers is that of Aaron Willard, presumably engraved by Paul Revere in 1781, presented to the American Antiquarian Society in 1948 by Mr. Mark Bortman, of Boston. It shows Revere's

familiar style of mantling, which includes Father Time, a rooster, the herald angel, a tree, and a watch. Aaron Willard is of course famed as a clock-maker, but few of us realized that he could be identified also as a watchmaker. Another rare and early watch paper, signed by Amos Doolittle (1754–1832), of Connecticut, depicting Father Time whipping the sun, is that of John H. Hall, of New Haven, dating apparently in the 1790’s. This was presented to the Society in 1950 by Mr. Carl W. Drepperd, of New York. An unusually handsome engraving of cherubs, with a beautiful border of roses, is the paper of Andrew Montgomery, of Baltimore, a die proof impression, signed with the initials of James B. Longacre (1794–1869), of Philadelphia, dating in the 1820’s. Other eighteenth and early nineteenth-century papers in the collection are those of Samuel Hayden, Boston, 1798; Nathaniel Butler, Utica, New York, 1799; Caleb Rogers, Newton, 1790’s, followed by Charles Campbell, 1800’s, and James McDowell, 1800’s, both of Philadelphia; Caleb Leland, Templeton, Massachusetts, 1800’s; Isaac Gere, Northampton, Massachusetts, 1801; Hunt & Clark, Bennington, Vermont, 1803; Moses L. Morse, Keene, New Hampshire, 1804; John Birge, Brattleborough, Vermont, 1805; John F. Ernst, Cooperstown, New York, 1808, and Andrew C. Trott, Boston, 1808.

The majority of the watch papers in the American Antiquarian Society are not signed, but in addition to the Hurd, Revere, Doolittle, and Longacre papers we do find the names of the following engravers:

William H. Freeman (working 1812–18), Baltimore
(Watch paper of John Bennett)

William Hamlin (1772–1869), Providence
(Watch paper of Franklin Richmond)

The recently published work on the Mavericks, by Stephen D. Stephens, lists two watch papers (Frederick D. Bleecker and Henry Cheavens, New York), engraved by Peter Maverick in the early nineteenth century.
It is believed that the miniature physionotrace portraits of so many distinguished Americans, popularly made by Saint-Mémin in the late 1790's and early 1800's, were occasionally used as watch papers as well as in lockets and frames. By using the physionotrace, or profile drawing machine, invented by Gilles-Louis Chrétien in 1786, Saint-Mémin was able to obtain the exact profile of a sitter. He then drew in the features, hair, clothing, and afterwards by means of a pantograph he reduced the large profile to a miniature size of about two inches in diameter. This he engraved on a copper plate. Several examples of these portraits are in the American Antiquarian Society collection, such as those of Silas Betton, John Campbell, Charles Carroll, Sr., 1804, Dwight Foster, John Lincklaen, James McHenry, Perez Morton, C. A. Rodney, and Nathaniel Williams; a really comprehensive collection of Saint-Mémin engravings is to be found in the Corcoran Gallery of Art in Washington. Examples have been found in which the circular portrait has been cut out from the stamped square, showing the bulge and oil stain indicating use in a watch. These miniature profile portraits fitted well into the back of a watch and could be carried as keepsakes in that way just as photographs were used at a later date.

Perhaps it is surprising that so many tiny watch papers have survived through the years, but a watch was a treasured possession and the padding was well protected inside the case. Such papers are not commonly found in every old watch, by any means, but copies are occasionally acquired today. The collection in the American Antiquarian Society has been of considerable value in identifying clock- and watchmakers for the Biographical Dictionary of American Clock- and Watchmakers now in course of preparation, as well as for a study of engraving in this
interesting form of advertising art. It is hoped that readers may unearth such watch papers and give the Society an opportunity to obtain them, in order to make its collection even more comprehensive than it is at the present time.

Adams & Eaton, Watch & Clock Makers, Opposite Old South, Boston. Seals, Keys and Trinkets.

This firm is listed in the Boston Directories, 1816–21. William Adams is listed from 1809 to 1844. Samuel A. Eaton is listed from 1816 to 1846 and died in 1846. (See Henry W. Cushman, Historical and Biographical Genealogy of the Cushmans, 1855, p. 496; Suffolk County Probate Records, 34:739.)

Born in Boston, Aug. 24, 1794, son of Joseph Pope (see previous entry); died in July, 1870. (See Hallowell Birth Records, 1924, p. 238; Charles H. Pope, History of the Pope Family, 1888, pp. 305, 311; Charles E. L. Wingate, History of the Wingate Family, 1886, p. 168.)

F. J. Posey, Watch & Clock Maker, Hagerstown, Md. All kinds of Silverware & Jewelry for Sale, Made to Order and Netly Repaired. Gold & Silver Spectacles.

Line-engraving. Woman with large watch, eagle holding small watch. Very thin cream paper.
Fayette H. Putnam was born in 1819, son of Stephen and Betsey Putnam; died at Worcester, March 23, 1857. Listed in Worcester Directories from 1844 to 1850 as spectacles manufacturer, and from 1851 to 1857 as a jeweler. (See Worcester City Clerk's Records.)

Isaac Reed, Clock & Watch Maker, 176 North Second Street, Corner of Vine, Philada. Chains, Seals, & Keys. Silver Spoons, Thimbles &c.

Line-engraving. Masonic emblem at top, with ornamental border. Cream paper.
Listed in Philadelphia Directories, 1813–58, but alone at the above address only in 1823–29, 1843–44. Listed "& Son" in 1830–42, 1845–58.

Isaac Reed, Clock and Watch Maker, In the Borough of Frankford [Philadelphia, Pa.].

Printed, with border of type ornaments. Cream paper.
Apparently the same Isaac Reed as the preceding, listed in Philadelphia Directories, 1813–58.

Franklin Richmond, Watch Maker, Market Street, Providence, [R. I.].

Line-engraving, signed by Hamlin. White paper.
Franklin Richmond was born at Little Compton, R. I., July 14, 1792, son of Dr. Benjamin and Sarah Church Richmond; died Feb. 8, 1869. Listed in the Providence Directories in 1824–58. (See Joshua B. Richmond, Richmond Family, 1897, p. 202.) William Hamlin was born in Providence, Oct. 15, 1772, son of Samuel and Thankful Ely Hamlin; died there, Nov. 22, 1869. (See H. Franklin Andrews, Hamlin Family, 1900, p. 144; David M. Stauffer, American Engravers, 1907, p. 116.)

Wm. H. C. Riggs, Clock & Watch Maker, 67 S. Front Street, [torn] doors below Chesnut Street, East Side, Philadelphia.

William H. C. Riggs is listed in the Philadelphia Directories in 1819, 1825–63, but at the above address only in 1830–39. He was noted for making banjo clocks for steamship lines, Pennsylvania railroads, also banks and commercial firms. (See Carl W. Drepperd, American Clocks, 1947, p. 268; letter from Ernest A. Cramer, Oct. 6, 1950, in American Antiquarian Society files.) Peter Maverick was born in New York, Oct. 22, 1780, son of Peter R. and Anne Reynolds Maverick; died June 7, 1831. The above firm name was adopted in 1818, with partners Asher B. and Cyrus Durand, and the partnership was dissolved in 1820. It is probable that this watch paper was engraved by the Maverick firm in 1819, when Riggs was at 89 Chesnut Street, and later the new address was re-engraved on the plate. (See Stephen D. Stephens, The Mavericks, 1950, pp. 48–55; Dictionary of American Biography.)

Listed in Philadelphia Directories, 1833–50, but at above address only in 1844–50.
Caleb Rogers, Clock & Watch Maker, At the Dial, Newton, [Mass.].

Line-engraving. Handsome border of flowers and leaves, with clock at the top, one of the earliest watch papers in the collection. One black on white paper, one red on white paper.

Born Apr. 19, 1765, son of Lieut. John and Hannah Rogers; died Mar. 9, 1839. (See Newton Vital Records; Francis Jackson, History of Newton, 1854, p. 403.)

Alvah Skinner, Watch Maker and Jeweller, No. 63 Congress St., Boston. Watches & Time pieces Repd.
Jesse Smith, Jr., Watch Maker, Essex Street, Salem, [Mass.].
Watches for Sale. Chronometers Adjusted.

Born Dec. 12, 1789, at Ipswich, Mass., son of Aaron and Lucy Baker Smith; died at Salem, July 4, 1866. Went to Salem when young and learned the trade from Benjamin Balch (see Balch & Smith). Apparently added “Jr.” to his name after moving to Salem, since a relative of that name was living in Salem at the time. Listed in the Salem Directories, 1837 (first Directory)–66. (See Essex Institute Historical Collections, III, 211–2, VI, 208; Vital Records in Salem City Clerk’s Office.)

(See Jesse Smith, Jr. According to the Salem Directories, he dropped the “Jr.” after his relative of that name died in 1844.)

Born 1806, son of David Smith, watchmaker; died at Lansingburgh, Feb. 2, 1875. Was Postmaster for nearly twenty years. (See Lansingburgh Gazette, Feb. 6, 1875.)

D. P. Smyth, Watch And Clock Maker, 311 Market Street, Wilmington, Delaware. Jewelry Repaired at Short Notice.

David P. Smyth was born in 1825; died at Wilmington, Oct. 29, 1896. Listed in the Wilmington Directories, 1859–96, but at the above address in 1865–96. (See Wilmington, Every Evening, Oct. 31, 1896, in the Delaware Historical Society.)
George Solliday, Clock & Watch Maker. Montg'lyville, Montgomery County, Penna. Clocks and Watches repaired on the most reasonable terms.

Line-engraving. Handsome design of garlands of flowers and ornamental border, with small clock in center. One cream paper dated 1867 on reverse, one blue paper dated 1871.

Born 1796, son of Benjamin and Margaret Kramer Solliday; died Aug. 21, 1871. (From gravestone in Baptist Meeting-House Cemetery at Montgomeryville, Pa.)

Solliday, Clock & Watch Maker, Green St. near Fifth, Philadelphia.

Thomas Steele, Late Steele & Crocker, Watch Maker, Jeweller & Silversmith, Exchange Buildings, 195 Main Street, Hartford, [Conn.]. Gold & Silver Watches, Silver Plated Britannia & Fancy Goods.

Line-engraving. Ornamental border. Yellow paper. (For Thomas Steele, see previous entry.) Horace B. Crocker was born in 1815; died Nov. 29, 1843. Listed in the Hartford Directories, 1839–43. (See Hartford Times, Dec. 2, 1843.)
A. Stowell, Clock & Watch Maker, Worcester, [Mass.].
Abel Stowell was born at Worcester, June 12, 1752, son of Cornelius and Sevilla Goulding Stowell; died Aug. 3, 1818. In 1800 he made the tower clock of Worcester's first Church, Old South. (See *Worcester Births, Marriages and Deaths*, 1894; Caleb Wall, *Reminiscences of Worcester*, 1877, pp. 53–4, 118; Boston, *Columbian Centinel*, Aug. 8, 1818.)

Died 1851(?). Listed in Boston Directories, 1828–51, but at above address only in 1830–51.

Israel F. Tappan, Clock & Watch Maker, Manchester, [Mass.].
Born Nov. 28, 1797, at Manchester, son of Ebenezer and Elizabeth Forster Tappan; died Aug. 15, 1884. (See Daniel L. Tappan, *Tappan Genealogy*, 1915, pp. 48, 53.)

Born at Enfield, Conn., Aug. 21, 1775, son of Ebenezer and Mindwell Terry; died at Enfield, May 26, 1858. Came to Worcester by 1797 since he advertised as a clock- and watchmaker in that year. Returned to Enfield about 1816. Dealt in swords, brass andirons, and hats. Was in partnership in 1814 with Aaron P. Willard (born Nov. 15, 1789, son of Daniel Willard of Warren, Mass., and Abigail Bailey). Aaron P. Willard was descended from Maj. Simon Willard’s son Jonathan, whereas the famous clock-making family was descended from Maj. Simon Willard’s son Benjamin. Aaron P. Willard removed to Beloit, Wis. Terry was a prominent citizen of Worcester and of Enfield, Conn. (See Francis O.

D. B. Thompson, Watch Maker, Brattleboro, Vt.
Daniel B. Thompson was born in 1800, son of Isaac Thompson; died in 1876. (See Mary R. Cabot, *Annals of Brattleborough*, 1921, I, 440.)

Probably Joseph Tindall, born 1802; died at Montgomery, Dec. 24, 1860. (See Ray C. Sawyer, Mss. Gravestone Inscriptions of Dutch Reformed Church Cemetery, Montgomery, 1931.) The engravers have not been identified.

H. Towle, Watch and Clock Maker, Main Street, Haverhill, N. H.
Henry Towle was born at Chester, N. H., Aug. 19, 1788, son of Simon and Eleanor Hall Towle; died Mar. 28, 1867. Jeweler and proprietor of drug store at Haverhill for many years. (See William F. Whitcher, *History of Haverhill, N. H.*, 1919, p. 663.)

Andrew C. Trott, Watch and Clock Maker, No. 28 Marlborough St., Boston. Seals, Keys & Trinkets.
Andrew C. Trott was born in 1779; died July 5, 1812. He probably engraved this watch paper himself as he was an engraver as well as a watchmaker and signed the paper of Samuel Bemis, which see. (See Boston, *Columbian Centinel*, July 8, 1812.)

A. C. Trott & Co., Watch & Clock Makers, No. 28 Marlboro St., Boston. Seals, Keys & Trinkets.
(See previous entry.)

Printed, with border. Green paper. Dated 1848 on reverse.
William J. Underhill was born Jan. 19, 1818, son of Absalom and Tamar Kipp Underhill; died in July, 1870, at Brooklyn, N. Y. Listed in the New York Directories from 1843 to 1870. (See Josephine C. Frost, Underhill Genealogy, 1932, III, 692.)

Jos. Van Derveer, Clock & Watch Maker, Somerville, New-Jersey.

Listed in Kirkbride’s New Jersey Business Directory, 1850. Married, Sept. 23, 1818, at Somerville, Maria or Mary Ann Tunison. A Mrs. Maria Van Derveer died Aug. 31, 1823. (See New Brunswick Times, Oct. 1, 1818; New Brunswick, Fredonian, Sept. 4, 1823; James P. Snell, History of Hunterdon and Somerset Counties, N. J., 1881, p. 663, refers to his clock shop, but no dates are mentioned.)

Ichabod Ward.

Manuscript watch paper with tinted border of green leaves and a cluster of red berries. The Lord’s Prayer, in microscopic handwriting, appears in a central globe, occupying a space of less than three-quarters of an inch in diameter.
Probably this was Ichabod Ward who was born at Ashford, Conn., Nov. 21, 1786, son of Joel and Elizabeth Woodward Ward. (See Charles Martyn, William Ward Genealogy, 1925, pp. 119, 174.)

Living in Pawtucket in 1828 when he married Eliza Bateman of Providence, on Dec. 3, 1828. (See Vital Records of Rhode Island, p. 437.)
Line-engraving. Pink paper.
Died Oct. 16, 1846. (See Exeter Directory, 1872, Register of Deaths.)

Line-engraving, signed by P. Maverick. Large eye at top, with ornamental border. Cream paper.
Ivory White is listed in the New York Directories for 1809-55, but at above address only in 1809-10. Presumably died in 1855-56. (For Peter Maverick, see entry under Wm. H. C. Riggs.)

Eben Whitney, Clock & Watch Maker, 381 Pearl Street, nearly opposite the Friends Meetg. house, New York.
Born Nov. 19, 1783, at Wilton, Conn., son of Ebenezer and Ruth Raymond Whitney; died at Norwalk, Conn., May 22, 1869. Listed in the New York Directories, 1805-43, but at the above address only in 1809-19. (See S. Whitney Phoenix’s Whitney Family, 1878, I, 140.)

Printed, with border of type ornaments. Cream paper.
Born 1828; died July 14, 1891. Listed in the Massachusetts Directory, 1849. (See Boston Transcript, July 15, 1891.)

Moses Whitney, Watch Maker, 1 Dock Square, Old Market, Boston. Watches, Clocks and Timepieces Repaired and Warranted.
Line-engraving. Cream paper.
Born Nov. 28, 1789, at Winchendon, Mass., son of Hananiah and Azabah Keyes Whitney; died at Sulphur Springs, Mo., [Sept. ?], 1838.
Listed in the Boston Directories, 1816–34, but alone at the above address only in 1822–34. (See Frederick C. Pierce, *Whitney Family*, 1895, pp. 148, 276; Boston, *Columbian Centinel*, Oct. 3, 1838.)

Wm. Widdifield, Clock & Watch Maker, Fayetteville, N. C.

Line-engraving. Clock and beehive. One pink paper, one yellow paper dated 1834 on reverse.

A. Willard, Watch & Clock Maker, Boston.

Line-engraving. Elaborate design showing angel blowing trumpet, Father Time, rooster, flowers, and leaves. White paper. Unsigned, but
in the style of, and presumably engraved by, Paul Revere, in 1781. This is one of the earliest and most interesting of our watch papers and was presented to the American Antiquarian Society by Mr. Mark Bortman of Boston, in 1949.

Aaron Willard, of the famous clock-making family, was born Oct. 13, 1757, son of Benjamin and Sarah Brooks Willard of Grafton; died May 20, 1844. (See John W. Willard, History of Simon Willard, 1911, pp. 83–93.) Paul Revere, Revolutionary engraver, was born Jan. 1, 1735, son of Paul and Deborah Hichborn Revere; died May 10, 1818. (See Dictionary of American Biography.)

Willard & Hawley, Dealers & Repair of all kinds of Watches, Jewellery &c., Syracuse, [N. Y.].

William W. Willard was born Oct. 16, 1808, at Van Buren, N. Y., son of Samuel and Hannah Avery Willard; died Sept. 8, 1876. Listed in the Syracuse Directories as above from 1851 to 1869. (See Joseph Willard and Charles W. Walker, Willard Genealogy, 1915, II, 253; Syracuse Standard, Sept. 9, 1876.) John D. Hawley was born Mar. 20, 1821, son of Reuben and Electa M. Clarke Hawley; died Aug. 14, 1913. In later years he was in the Registry Division of the Post Office. (See Elias S. Hawley, Hawley Record, 1890, p. 340; Syracuse Directory of 1914, for date of death.)

Stillman Willis, Watch Maker and Jeweller, No. 54½ Cornhill Corner of Court St., Boston.

Listed in the Boston Directories, 1810–52, but only at the above address in 1821–23.

Printed. Small eagle, with border of type ornaments. Yellow paper.

Born June 11, 1793, son of Paine and Mary Pecker Wingate; died at Haverhill, Feb. 17, 1851. (See Haverhill Essex Banner, Feb. 22, 1851; Haverhill Vital Records.)
Major General James Wolfe. The British Hero.  
(See Georgius III Rex.)

Printed. Yellow paper.  
Born Oct. 10, 1811, at Westminster, Mass., son of Nathaniel G. and Lavina Wood; died Apr. 4, 1894. Went to Westborough in 1837; listed in Bartow’s Directory of the Watch Trade, 1869. (See Worcester County Probate Records, Will 16,646; Westborough Chronotype, Apr. 7, 1894.)

Born 1797; died at Springfield, Mass., Apr. 14, 1864. Listed in the Springfield Directories, 1845 (first Directory)—64, but alone as a watchmaker only in 1857—63. (See Thomas B. Warren, Springfield Families, p. 764, typed Mss. in the Springfield City Library Association.)

Woodworth & Kirkham, Watch Makers, Springfield, Mass.  
This firm is listed in the Springfield Directories only in 1847—48. (See previous entry for Earl Woodworth.) James Kirkham was born Apr. 24, 1821, at Newington, Conn., son of William and Sophia Leffingwell Kirkham; died at Springfield, Feb. 8, 1893. Listed in the Springfield Directories, 1845—92, but as a jeweler, alone, only in 1853—57. Was President of the Pynchon Bank, 1859—63, and President of the First National Bank, 1864—92. (See letter from his grandson, Dr. William B. Kirkham, Sept. 22, 1950, in the American Antiquarian Society files.)

J. M. Young, Watchmaker, Candia Village, N. H.  
Probably this was Jesse M. Young who was a town officer at Candia in 1870, and Tax Collector in 1880—84. (See J. Bailey Moore, History of Candia, 1893, pp. 471, 476.)

Line-engraving, signed by Perkins. White paper.

Edward Young was born in 1816, son of Alexander Young, silversmith, of Camden, S. C., and Elizabeth Rowe Young; died in 1848. Went to Columbia in the 1840's. (See E. Milby Burton, Silversmiths of South Carolina, 1942, pp. 9, 232–3.) John Veal, Sr., was working in Columbia about 1827–57; died aged 92. (See Julian A. Selby, Memorabilia . . . of Columbia, 1905; Burton, pp. 229–30.) Probably the engraver was Joseph Perkins, born at Unity, N. H., Aug. 19, 1788, son of Jacob and Hannah Chase Perkins; died Apr. 27, 1842, in New York City. Was graduated from Williams College in 1814; went to Philadelphia in 1815, taught high school and gave lessons in penmanship; learned script engraving and removed to New York in 1825. Listed in the Philadelphia Directories, 1820–25, and in the New York Directories, 1826–42. (See George A. Perkins, Family of John Perkins, 1887, Part 2, pp. 45, 66; David M. Stauffer, American Engravers, 1907, Part 1, p. 210; Calvin Durfee, Williams Biographical Annals, 1871, p. 357.)

[No name.]

Line-engraving. Attractive border of leaves and flowers, with watch at top hanging from ribbon. White paper. Eight lines of verse in center:

A Watch may teach unthinking Man
That life is but a transient span
His reasoning powers the balance shows
Thoughts like the hands tell how it goes
Conscience the Regulator proves—
And self inspection faults removes
With this & fervent pray'r each night
Wind up yr days & set them right.

[No name.]

Manuscript watch paper with handsome border of green leaves and red berries. Center contains the Lord's Prayer in minute handwriting. Although the watch paper itself is one inch and twelve-sixteenths in
diameter, the space occupied by the Lord’s Prayer is only three-quarters of an inch in diameter. Presented to the American Antiquarian Society in 1949 by Mr. Carl W. Drepperd.

[No name.]

Cut-out watch paper in a design of flowers and leaves, one and seven-eighths inches in diameter, scalloped edges. White paper.

Same, in a design of trees, two inches in diameter, with pointed edges. White paper.

[No name.] Sub Libertate Florent. MDCCCLXXX.

Woodcut. Warrior with spear and shield, standing on shore, looking back at ocean and ship, and smiling sun. Cream paper.

Unknown. Apparently American.

[No name.] 1st Jan. 1824. May Friendship still thy evening feast adorn, And smiling peace forever bless thy morn.

Hand-painted sentimental token. A beautiful design showing three turtledoves perched on a nest of roses and leaves. On the reverse is the name H. Hurd.
