Report of the Treasurer

INDEPENDENT AUDITORS' REPORT

The Council
American Antiquarian Society

We have audited the accompanying statements of financial position of the American Antiquarian Society (the "Society") as of August 31, 2008 and 2007, and the related statements of activities and cash flows for the years then ended. These financial statements are the responsibility of the Society's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Society as of August 31, 2008 and 2007, and the results of its activities and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated October 20, 2008 on our consideration of the Society's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audits.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to those basic financial statements taken as a whole.

1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

The American Antiquarian Society (the "Society") supports and maintains a research library of American history and culture. The Society collects, organizes, preserves, and makes available for use printed and manuscript materials dating principally from 1639 to 1876. In addition, the Society provides educational programs, offers research fellowships, and produces scholarly publications.

Method of accounting

The financial statements of the Society have been prepared on the accrual basis of accounting. Accordingly, assets are recorded when the Society obtains the rights of ownership or is entitled to claims for receipt, and liabilities are recorded when the obligation is incurred.

Accounting estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses. Actual results could differ from those estimates.

Financial statement presentation

The Society presents information regarding its financial position and activities according to three categories of funds described as follows:

General fund - Resources principally for the general operations of the Society.

Plant fund - Resources of a property, plant, and capital equipment nature, as well as resources reserved for the acquisitions of such assets.

Endowment fund - Resources that are subject either to external donor imposed restrictions or to internal designations imposed by the Society’s governing board, requiring that principal be invested, and spending of income and gains be subject to a prudent spending rule. Accumulated appreciation from funds so restricted or designated are also included in the endowment fund.

The Society additionally presents information regarding its financial position and activities according to three classifications of net assets described as follows:

Unrestricted - All resources over which the governing board has discretionary control. The governing board of the Society may elect to designate such resources for specific purposes. This designation may be removed at the board's discretion.

Temporarily Restricted - Resources accumulated through donations or grants for specific operating or capital purposes. Such resources will become unrestricted when the requirements of the donor or grantee have been satisfied through expenditure for the specified purpose or program or through the passage of time.

Permanently Restricted - Endowment resources accumulated through donations or grants that are subject to the restriction in perpetuity that the principal be invested. Investment income and appreciation may be either an unrestricted or temporarily restricted resource when earned, determined according to the gift instruments and relevant state law.
1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash and cash equivalents

For purposes of these financial statements, the Society considers all unrestricted money market funds and highly liquid debt instruments with original maturities of three months or less to be cash equivalents.

The Society maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The Society has not experienced any losses in such accounts. The Society believes it is not exposed to any significant credit risk on cash and cash equivalents.

Pledges receivable

Unconditional promises to give that are expected to be collected within one year are recorded at their net realizable value. Unconditional promises to give that are expected to be collected in future years are recorded at the present value of estimated future cash flows. The discounts on those amounts are computed using a risk-free interest rate applicable to the year in which the promise is received. Accretion of the discount is included in contributions and gifts revenue. Conditional promises to give are not included as support until such time as the conditions are substantially met.

Property, plant, and equipment

Property, plant, and equipment are carried at cost or at fair value as of the date of the gift. Depreciation is computed using straight-line and accelerated methods.

Investments

Investments in equity securities with readily determinable fair values and all debt securities are reported at fair value. Any alternative investments which are not readily marketable are carried at estimated fair values as provided by the investment managers. The Society reviews and evaluates the values provided by the investment managers and agrees with the valuation methods and assumptions used in determining the fair value of the alternative investments. Those estimated fair values may differ significantly from the values that would have been used had a ready market for these securities existed.

Gains or losses on investments are reported in the statement of activities as increases or decreases in unrestricted net assets unless their use is temporarily or permanently restricted by explicit donor stipulations or by law.

Investment income is recorded in unrestricted assets unless its use is temporarily or permanently restricted by law or explicit donor stipulations.

State law has been interpreted to require that, unless explicitly stated otherwise by the donor, realized and unrealized appreciation on permanently restricted assets should be classified in a restricted net asset classification until appropriated for use by the governing board. Accordingly, based on the terms of the underlying gift instruments, net investment gains and losses of the Society are classified as temporarily restricted. The governing board annually establishes a spending rate from a total investment return to support current operations. To the extent that investment income does not provide this level of support, net investment gains are appropriated for operations.

Deposits with bank trustee

Deposits with bank trustee are reported at fair value. Gains and losses on deposits with bank trustee are reported in the statement of activities as increases or decreases in unrestricted net assets.
1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Bond issuance costs

Bond issuance costs represent fees and other costs associated with obtaining long-term financing. Such costs are being amortized on a straight-line basis over the terms of the financing.

Collection

As allowed by accounting principles generally accepted in the United States of America and following the practices of many libraries and museums, the Society has not capitalized its collection of items of historical nature and other related objects purchased or donated. The collection is held for public education or research in furtherance of public service rather than financial gain. The Society continually reviews its collection and may deaccess or acquire additional items. Expenditures for additional collection items are presented as a reduction in the appropriate class of net assets.

Contributions, gifts, grants

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and nature of any donor restrictions. Contributions may include actual gifts or promises to give. Such contributions are considered to be available for unrestricted use unless specifically restricted by the donor or grantor. Contribution of assets other than cash are recorded at their fair value on the date of the gift. Gifts of long-lived assets are reported as unrestricted support, unless specifically restricted by the donor. Time restrictions on gifts of long-lived assets, if any, expire when the assets are acquired. Restricted gifts or promises to give are required to be reported as restricted support in the period received and are then reclassified to unrestricted net assets upon satisfaction of the donor restriction.

Functional expenses

The expenses incurred to provide the various programs and other activities of the Society have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated to the programs and supporting services benefited.

2 - PLEDGES RECEIVABLE

Payments of pledges as of August 31, 2008 are expected to be received as follows:

</tbody>
</table>

As discussed in Note 1, the Society’s investments are reported at fair value. Market value in the investment markets has been volatile since August 31, 2008. As a result, the fair value of the Society’s investment portfolio subsequent to August 31, 2008 is substantially lower than amounts reported at August 31, 2008.

5 - DEPOSITS WITH BANK TRUSTEE

The Society’s bonds payable indentures require the maintenance of restricted construction and debt service reserves and replacement funds on deposit with a bank trustee. Deposits with bank trustee are held in various escrow accounts and are available for the following purposes:

<table>
<thead>
<tr>
<th></th>
<th>2008</th>
<th>2007</th>
